OUR FOOTWEAR FOUNDATIONS

3 reasons to choose Reima shoes

1. PLAYFUL AND FUNCTIONAL

We make shoes that are kid friendly, kid tested and always ready for action. Easy to pull on and off, our shoes are weatherproofed and designed to go the distance, covering a full spectrum of outdoor activities. All seasons, all weather conditions, all adventures.

2. OPTIMAL COMFORT, ADAPTED FIT

Kids' feet and what they need from their shoes will evolve as they grow. A toddler learning to walk has different needs than a child playing in the school yard. We use our footwear expertise to design age and occasion appropriate shoes, with maximum comfort and an optimal fit.

3. BOLD AND INNOVATIVE

Inherently inspired by our Nordic heritage, we bring a distinctive blend of fun and functionality through our uniquely diverse and award winning shoe designs.

HIIVIN REIMATEC SHOES

Wellness starts from the feet

Reima shoes are the perfect companion for active explorers: designed to enable free movement and healthy growth. Because we start our creation from children's needs, our shoes are always age-appropriate. They let kids kick, hop and run, safely and in full comfort, all year round. At Reima, there's a shoe for every adventure, in any type of weather!

BAREFOOT SHOES

Ideal for the early years and natural terrain, designed to give growing feet the space they need to move and develop naturally, with heightened ground feel for enhanced outdoors playtime.

ROLLING STEPS

Comfortably cushioned for play and adventuring on a variety of surfaces, from natural to hard. Featuring our unique Rolling Steps outsole geometry.

CORE COLLECTION

Functional, feature-loaded and fundamentally Reima, our Core Collection embodies our product promise: shoes for every need every season and every age.

Sneak into spring

FIVE ROBUST REASONS TO GO FOR HIIPIEN SHOES

- 1.** Waterproof – no need to avoid puddles
- 2.** Easy to put on, with two-point fastening for a snug fit
- 3.** Flexible and lightweight Reima EVA/rubber outsole
- 4.** Removable insoles with Happy Fit print to help find the correct size
- 5.** Reflective details for more visibility in the dark

The Wetter the Better

Less stitching on the upper makes the shoe more waterproof.

Easy child-friendly closure speeds up dressing.

Removable Happy Fit insoles make regular size checks easier.

Waterproof

The high outsole bumper edge gives better protection.

Dual density injection sole means less glue is needed.

SHOES THAT STAND OUT FROM THE REST

What if you're not exactly sure if it's going to rain or not, and wellies would just be too much? The answer is Reimatec: our shoes with a waterproof membrane. They'll keep kids' toes dry, so our young professionals of play are free to roam.

More fun in the sun

FIVE RELATABLE REASONS TO PROTECT KIDS' FEET WITH LEAN SWIMMING SHOES

- 1.** Perfect protection against sunburnt feet and urchin wounds.
- 2.** The completely flat sole lets your kid retain their natural posture.
- 3.** The thin, flexible sole activates the foot muscles.
- 4.** Removable Happy Fit insoles let you check the size easily.
- 5.** To keep them fresh, just toss them in the machine.

MEASURING THE FOOT

Have your child stand on a paper, heel against the wall. Mark the foot length on paper and measure the distance on the end of the sheet.

KEEPING HEALTHY KIDS' FEET HEALTHY

To help a child's motor skills develop normally, it's important to choose the right size and shape of shoe. Parents must also follow the growth of the feet to make sure the shoes fit properly.

Happy Fit makes measuring easy

You can check the shoe size by taking out the insole, so that the child can stand on it. In total, the length of the foot + 1.5 cm for growth and operating reserve is necessary. Most Reima shoes have the "Happy Fit" print in the removable insoles to help you find the correct size.

Smaller allowance for barefoot shoes

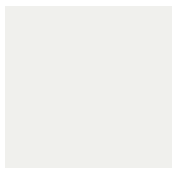

For barefoot shoes, a smaller reserve is recommended. The extra space for growth and movement in barefoot/ minimalist shoes should ideally be around 1.0 - 1.2 cm.

Go for technical socks

A 100% cotton sock will feel cold when it gets sweaty. Socks with synthetics that wick moisture away from the skin are a better choice for waterproof shoes. In cold times, socks with wool will be warm even when moist.
